

223 SEMI-RIGID
MATTE WHITE

Break Out of That Shell!
Think Thick!

...Films that is.

Try General Formulations **223 6 mil Low-Tack Digital Print Media!**

While your at it, try **222 6 mil Permanent** the next time you print and mount to display boards.
Saves time, eliminates that PVC stretch hassle.

General Formulations **222** and **223 Series Films** are semi-rigid vinyl films a **full 6 mils thick**.
Designed for easy stretch free application to glass, synthetic boards, and painted metals.
