GF 500 SERIES CUT & CRAFT VINYL

3.0 MIL GLOSS COLORED VINYL CLEAR PERMANENT ADHESIVE

GF 500 Series Cut & Craft vinyl contains a selection of 3.0 mil gloss and matte white, black, clear and color films, coated with a permanent acrylic pressure-sensitive adhesive on a 78# clay coated liner. This film is designed for roll-fed plotter cut vinyl graphics as well as sheeted material for home craft applications. This product is recommended for outdoor and indoor uses where a high-quality marking film-requiring flexibility, durability and resistance to sunlight is required. These films can be used for architectural signage, commercial-retail signage, point-of-purchase graphics and vehicle decals. The tight release liner allows for easy weeding and is compatible with most application tapes.

PRODUCT NAME	500 SERIES		
FILM			
Film Type	Colored Intermediate Vinyl		
Film Thickness (mils/µm)	3.0 / 76 (+/- 10%)		
Film Weight (gsm)	104		
Gloss (60°)	≥80		
Opacity (%)	94 (average - varies by color)		
Tensile Strength (Ibs/in)	MD ≥ 3500 / CD ≥ 3500		
Elongation (%)	$MD \ge 200 \ / \ CD \ge 200$		
Dimensional Stability (FTM 14)	$MD \le 2.00 \text{ mm} / CD \le 1.20 \text{ mm}$		
ADHESIVE			
Adhesive Type	Emulsion Acrylic		
Adhesive Thickness (mils/µm)	.08-1.0 / 20-25		
Adhesive Color	Clear		
Peel Strength on Stainless Steel (Ibs/in) / (N/25mm) 15 min	2.4 / 11		
Peel Strength on Stainless Steel (Ibs/in) / (N/25mm) 24 hrs	4.0 / 18		
LINER			
Liner Weight (#/gsm)	78 / 127		
Liner Type	White Clay Coated Kraft		
Liner Thickness (mils/µm)	4.5 / 114		
Release Force @ 360" / min (g/2")	30-70		
PERFORMANCE GUIDANCE			
Application Temperature	\geq +40 °F		
Service Temperature	-40 °F to 180 °F		
Shelf Life	Up to 1 year		
Storage Temp / Rel. Humidity	70 °F / 50%		
Outdoor Durability	up to 5 years

FAQ				
What types of transfer tape should I use with the GF 500 Series?		ferite® 6582. For m	In most instances a medium tack application tape should work, such as Trans- ferite® 6582. For multiple color alignments, we would recommend using a frost- ed matte tape such as Transferite® 1510 or a clear tape such as Transferite® Ultra® 1310 Clear.	
Can I use GF 500 Series Gloss Calendered Vinyl on vehicles?		GF 500 Series has a permanent emulstion acrylic adhesive and can be used in flat-surface short-term vehicle applications. Typically a cast or high-performance colored solvent adhesive vinyl will be used for long-term vehicle graphics.		
What is the expected exterior lifetime of these products?		Different films and pigments will fade at different rates, but what our lab and ex- tended life testing reveals is that there will be minimal color fade for up to 5 years under normal exposure conditions. GF 503 Transparent and GF 504 Matte Clear are up to 6 months under normal exposure conditions.		
I used some GF 512 Victorian Blue to apply cut letters to wine glasses; are the Cut & Craft products dishwasher safe?		It is recommended that dishware with decals be hand washed with mild soap and water. The vinyl and adhesive can be impacted by high heat and extended exposure to water and cleaners. However, the adhesive and vinyl have excellent resistance to humidity.
